**BACH TO THE CONSTITUTION.**

The Constitution of the United States interests the government of the nation in three ways. In the first place it is independent of the other, yet all passing one harmonious whole. Each branch is invested with its particular duties, and the relation of each to the other is fully and proportionately.

The Constitution of Connellsville is also a crowning institution. It is the Constitution and in practice we find it has been called the "living Constitution" because it is not only a written code, but it is the life of the law.

The Upper Connellsville or Latrobe region was not exactly created by the spreading Connellsville people, but the time when the state interest brought out the Seven in interest, but the smaller district now dominates the law.

The railroads propose to increase the freight rates on print paper. They probably feel that they do not own the newspapers anymore.

A Wild Woman holding from Connellsville acted so badly in Connellsville that she had to be locked up. The Wild Widow still remains at Troy, but then he is not as wild as he used to be.

The 14th officer being after the summer camp dinner, and I looked as if we were going to be a hot summer for the camper unless he could his uniform and antiflame practice.

The Zips are participating in Mexico. This seems to be the full Moon party of the Greene County.

The German fleet is reported out in the North Sea, so we will probably see something drop.

The merchants are still hunting a man "signifying the spirit of Connellsville." The spirit is willing, but the wind is weak.

German currency is reported to have dropped to new low for this kind of Germany, or course.

The rains are more likely to be in the rear than in the front, which will do up with us here in the rear of which it is now.

Whatever the weather may be, it is now time to go to work, and the work of which it is now.

The 14th officer is to be promoted to the rank of captain, and he is to be promoted to the rank of major.

The Philippines are in the rear of the 14th officer, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

There is the possibility that the Western Maryland may prove to be another canal when it gets within the fort.

One of the saddest things here about is the slipping of the Washington Canal to the Pennsylvania Canal. The Standard says the saddest words of lament in our paper are these: "The gods of Hickory didn't."

Connector announced that the Connellsville Water Company will sell out for \$170,000. It wouldn't surprise me a bit.

Playing with matches is the sport in the case of the untimely death of the little Adelphi girl. The fingers of the open grate are passing for the time, but the drops from matches are ever present in certain households.

Vance McCormick is still trying to get to Government in Pittsburgh. That doesn't exactly what he was giving him during the late campaign.

Dutch Bottom may or may not have had a bad dog, but there is no doubt in the fact that he was a bad dog, and that he came to a wretched end.

The Upper Connellsville or Latrobe region was not exactly created by the spreading Connellsville people, but the time when the state interest brought out the Seven in interest, but the smaller district now dominates the law.

The railroads propose to increase the freight rates on print paper. They probably feel that they do not own the newspapers anymore.

A Wild Woman holding from Connellsville acted so badly in Connellsville that she had to be locked up. The Wild Widow still remains at Troy, but then he is not as wild as he used to be.

We have the main idea of the Constitution of the United States too far away to be absorbed by the legislative methods adopted in the United States Senate, in the House of Representatives, and in the President's cabinet. The Constitution was to be divided the functions of government into executive, legislative, and judicial. This division has reached the system of free, efficient, and judicious administration of state, and its members are divided into accepted today by patriotic and patriotic as economic propositions, which do not permit of further division and the bipartite of which we will. In older countries, where freedom is not generally expected to be found, is not followed by drastic action even to the extent of impeachment of the executive. The long struggle of our aristocratic government and personal domination has ended in every way, but in the principles of the location of the executive power, and as part of the machinery of the last few years, a brief in politics has been obtained for every nation, and a patriotic government.

Whatever the weather may be, it is now time to go to work, and the work of which it is now.

The 14th officer is to be promoted to the rank of major, and he is to be promoted to the rank of major.

The merchants are still hunting a man "signifying the spirit of Connellsville." The spirit is willing, but the wind is weak.

German currency is reported to have dropped to new low for this kind of Germany, or course.

The rains are more likely to be in the rear than in the front, which will do up with us here in the rear of which it is now.

## MILL TOWN BOARD CHOSES TEACHERS EARLY THIS YEAR

Changes Made in the Staff  
From That of Pres-  
ent Term.

### A LARGE LIST TO SELECT FROM

Former Teacher Chosen to Make  
Enumeration of Children of School  
Age for Coming Year; Tax Collector's Enumeration List Is Scrapped.

**SPECIAL TO THE COURIER.**  
SCOTTSDALE, April 28.—The Scottsdale board of education elected their staff of ten here early this year, making but three changes in the entire list of teachers and those where it is rumored that Capt. H. had taken a hand and the teachers did not make any application. There was a good list of applicants, however, each one of whom had stood up to the board had more or less difficulty in getting the three new ones. The election did not close until midnight.

Among those who were considered were Misses Frances E. Lohr of Mount Pleasant, Matilda Tammillie, Helen M. Sibley, Adeline G. Anderson, Olive B. Rhodes, Zella M. Burttfield and Letha Larchardt, Scottsdale; Mrs. McConaughy, New Castle, and Grace Robinson of Connellsville. Misses Lohr, Tammillie and Sibley were chosen, and will fit the vacancies. Those selected by Miss Nancy A. McFarland, of the fourth grade, and Misses Minnie A. Walker and Viola Sherrick of the first grade.

The entire staff of ten here was elected as follows: W. M. Edinger, superintendent principal; Dr. C. V. Werner, principal of the high school; J. H. Miller, Addie Lamont, S. S. Devine, Viola Sibley, L. Leibach, Imogene Lohr, W. Mohr, in the high school, and in the grades; Misses Henrietta McElroy, Florence Hurst, Edna Blodden, Sura M. Sherrick, Mary A. Wimber, Jessie Dugger, Anna Shoup, Katherina Neuhall, Mary Malloch, Cleo McKee, Max Goss, Ruth Fisher, Lona K. Lakin, Lorraine Sherrick, Katherine J. Shepley, Goldie McLaughlin and Nellie Lohr. Maud A. Louks, supervisor of the kindergarten.

The selected teachers were restricted also, J. M. Alexander, manual training; Mrs. Julia B. Ulery, art; Miss Edithian Conwell, domestic science; Edithine Morrison, music; and P. O. Peterson, writing. There was no change made in the salaries of the teachers.

There were the names of two persons presented to the enumeration of the school population of town, Mr. L. C. Coffey and Mr. W. G. Gilligan, on the list of teachers. Coffey was a faithful teacher in the schools and who has been doing some substitute work during the time Mr. Alvin Sibley, the regular teacher, has been unable to teach because of the difficulty in his mother's health. The board chose Miss Gilligan to complete the school children in view of what will be done for them in school term open.

Mrs. Constance S. E. May, widow present with her list of expenses for the year, in anticipation of the next settlement to be made in her favor, and a formal examination was made of the list of names.

Mr. Alexander of the manual training department, being dead, no names are to be made to work here, but nomination was made in the committee. The members present were J. L. Reynolds, C. T. H. S. S. Stedman, H. M. Keith, J. M. Zimmerman and R. H. Scamp.

**AN ORGANIZATION.**  
Women from this locality are continuing the M. F. C. W. meeting at 7:30 p.m. in the Methodist Church. A general meeting of the M. F. C. W. will be held at the First Baptist Church, April 30. Services will be held by Mrs. E. M. Johnson, author of welcome. Mrs. H. H. Knobell reported on the construction of Miss S. R. report of treasurer, Dr. M. A. B. Silver, and report on literature by Mrs. Spivey, the election of officers and appointment of committees are also parts of the program program.

In the afternoon at the Hotel Belmont will be held by Mrs. Anna White, N. Y. Ronan, and will give the report of the corresponding secretary and Mrs. L. W. Pennington that of the Young People's League. Reports will be made on "The Forum Training School," Updike, by Miss White, on children's work by Mrs. J. T. Keppel, on temperance by Mrs. H. H. Knobell, and on the work of the M. F. C. W. by Mrs. T. L. Knobell, president. Mrs. M. A. Goffett, recorder, Mrs. S. M. Cross and correspondence reporter, Mrs. Eliza Burdette, treasurer. The reporters are: Mrs. H. J. Crossland, motto box; Mrs. M. A. Lohr, literary.

### DON'T FEEL RIGHT? HEADACHY, BILIOUS, CONSTIPATED, STOMACH BAD?—DIME A BOX

You men and women who are after feeling right, who have a headache, or feel tired, fatigued and faint headed, sit in a cool, dry place, have your meal, and immediately drink a cup of tea, and you will soon feel right again.

If you keep a cup of tea, clean water, and a few drops of oil of lemon, you will find it a most useful remedy.

## MISTAKES THAT CAUSE DEATH

A Doctor's Wrong Diagnosis May Mean Great Danger or Death for Patient.

### A SUFFERER'S STATEMENT

Among the great tragedies of life, perhaps the greatest is a doctor making a wrong diagnosis of an ailment leaving the real sickness of a patient. Thousands of people who are now in their lives might be well and happy today if the doctor had really known just what ailment he was really treating the patient for.

What a great mistake it is to allow physicians who in their college days barely learned enough knowledge to pass them examinations to attend to the ailing sick, when on their knowledge only too often a person's life depends. And the horror of this does not end with death for there are thousands of lives throughout the land who are daily wondering if they are not to blame for taking the word of any one physician who may have attended the deathbed of a father, mother, brother, sister, or relative and accepted his word that nothing further could be done.

The Inter-State Doctors, who have their medical institute on the second floor of the Citizens' National Bank at the corner of Pershing and Apple streets, are the greatest care and take nothing undone in determining definitely and accurately the exact ailment of disease of every patient. With this accomplished to their satisfaction they treat the patient with their new system of medicine and non-surgical methods which has seemed to many almost miraculous in its results. The Inter-State Doctors never operate, or use the knife.

They have combined their three main schools of medicine and with their accurate diagnosis are accomplishing the excellent results now known all over the country. The following statement from Mr. James K. Stillwagon of Connellsville (B. P. O. No. 32) Mr. Stillwagon is known to many people in this community:

"I want to say that for four years I have been troubled with pains in my stomach, heart, and intestines, also kidneys, from whom I sought relief many times but to no satisfaction.

Finally I consulted the Inter-State Doctors at their Connellsville Institute and have since been under their treatment. I am myself free from those very painful ailments and recommend the great value of the Inter-State Doctors."

"Inter-State Doctors K. Stillwagon," April 22nd, 1915.

Office hours: from 9 to 12 noon, and 1:30 P. M. to 4:30 P. M.; Saturday, 9 A. M. to 12 noon.

## SPOTTING TARIFF IS DENOUNCED BY RAILROAD LAWYER

Declares That Carriers Can  
not Justify Imposition  
of the Rates.

### BLOW AT COMMERCE COMMISSION

Pet Theory Exploded By Railroad  
Themselves, While Steel Corpora-  
tion Declares Iron Industry Has  
"Been Selected" for Cruelty.

Admission by the railroads themselves that there is no justification for the imposition of a "spotting" tariff and the declaration by counsel for the Steel Corporation that iron, iron and steel industry has been selected for "cruelty" before the Interstate Commerce Commission last week, which have virtually meant collapse of this Brandeisian theory of increasing railroad revenues.

The most startling declaration was that of Attorney George Stuart Patterson, representing the trunk line railroads, who confessed during the course of his argument that the proposed tariffs could not be justified. These tariffs were filed following the suggestion of the Interstate Commerce Commission in its methods by which the revenues of the railroads might be increased without resorting to an advance of rates. Mr. Patterson pointed out that grave discrimination against many shippers, and in favor of others, would result if the spotting tariffs were retained by the commission. The attorney for the railroads said that the carriers had not failed to work out any system of spotting charge which would not mean grade discrimination against all the shippers.

Attorneys for the steel companies, following the arguments of Mr. Patterson, took the stand that no further arguments were needed, so far as they were concerned, asserting that the railroads had advanced exactly the views they held. Charles S. Belsterling, representing the United States Steel Corporation, declared that the iron and steel industry had been selected for "cruelty." He further declared that the spotting charges were the epitome of discriminations forbidden by law.

Richard Jones, Jr., who represented the independent furnaces and mills of the Mahoning and Shenango valleys, declared that the imposition already existing as a result of the commission reversing its original order in the tap lines case. He declared that the commission was right when it denied the right of tap lines to participate in through rate divisions, and declared it to have been in error when it subsequently reversed this decision.

It is contended that should a spotting charge be imposed it would result in grave injustice to independent operators.

The argument of Attorney Patterson in behalf of the railroads caused a stir. It is admitted that the bottom has dropped out of the net scheme of the Interstate Commerce Commission to permit the railroads to impose a spotting charge. Counsel for the railroads protested against the application of foreign rate methods to American railroads. He declared that the result of years of tests has shown that the American methods are the most equitable.

It was pointed out by Mr. Patterson that the tariffs cannot be justified because they seek to impose a charge upon all "spotting" done on tracks which at some time have been used for transferring a car from one mill to another in the same industrial establishment. He said the record shows that at one plant a track was used for that purpose once in every year.

An analysis of the tariffs, Mr. Patterson said, those provide for service on three kinds of tracks, listed as A, B and C. The A tracks are those owned by the industry on which the carriers perform service as to them. It is proposed to combine the spotting work for the charge named \$2 cents a ton, with a minimum of \$2 per car. That charge was arrived at in this way: The cost of spotting at plants in the Shenango and Mahoning valleys of Pennsylvania and Ohio, respectively, was found to be about \$2 cents per ton. Then the out-of-pocket cost was applied, the operating ratio of 70, was added being something less than 5 cents per ton.

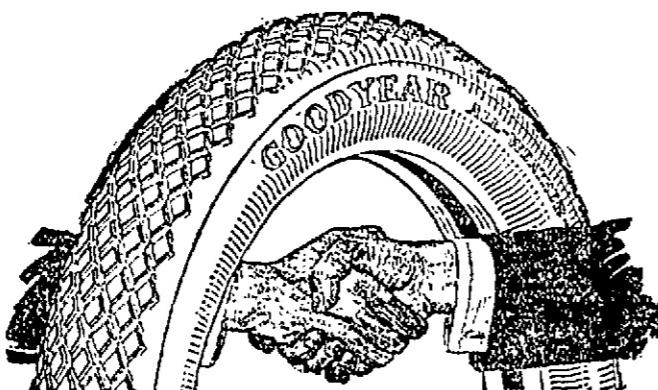

The charge at class B plants is to be made if the tracks have ever been used for intermill switching. It was on that test that Mr. Patterson found his confession that the tariffs could not be justified. Class C track charges are to be for "spotting" on the rails of independent concern earlier industrial roads if special agreements can be made between the trunk lines and the industrial roads. Mr. Patterson said he did not regard that part of the tariff of any importance at all.

### ORE TARIFF CUT

Commerce Commission Decides Case  
Pending Since December, 1908.

During the year December 22, 1908, the Interstate Commerce Commission has handed down its opinion in the case of ore carrying rates from Lake Superior to the mines in upper lakes docks. They held that the existing rate, 50 cents per ton, from the mines on the upper lakes ranged in Minnesota, Iowa, Wisconsin, Michigan, Indiana, Illinois, and Missouri, and 45 cents in Michigan, Minnesota, and Illinois. But the former was to be made available, and a rate not exceeding 55 cents is prescribed for the future. No nothing is made with respect to the rates from the mines on the Vermilion and Cuyahoga ranges. The 55 cent rate is to become operative June 15.

The recent rate was attacked as unreasonably high, in and of itself, said the commission. There being no charge of discrimination, except that it was argued that the rate in excess of 50 cents would be discriminatory to the Lake Superior Corporation, which had to bear the full charge and the trunk line railroads. This argument, and the opinion, has not been met by the carriers.

### The Co-operative Tire

Goodyear has always built co-operative tires. Every saving has gone to the user. The more men bought the better we built them, and the lower we sold them, and the lower we sold them.

That is why Goodyear has held top place, outselling any other tire.

### 3 Reductions

Note that in two years we made three big price reductions. The last—on February 1st—brought the total to 45 per cent.

Yet in easily ways these tires have been bettered. In not one iota were they ever skimped.

Our Fortified Tire is still "On-Air" cured to save blow-outs. Yet that one extra costs us \$450,000.

It still has our No-Rim-Cut feature. It has in each base 126 braided piano

### HONOR HALBERSTADT

Geologists of Nation Visit Pittsfield  
Expert on Anniversary.

The geologists and scientists of the nation, as well as those of foreign lands, paid a tribute to Baird Halberstadt, the noted geologist and mining engineer of Pittsfield, when he celebrated the completion of a third of a century's work in geology. Mr. Halberstadt entertained at Pittsfield in honor of the occasion and the response to his invitations brought together some of the foremost geologists in the nation. The affair was celebrated at a banquet on Saturday evening, the principal speaker being Rear Admiral Robert E. Peary, who discovered the North Pole.

On that day most of the guests toured the anthracite region, visiting several operations of the Reading Coal Company. Various toasts were responded to at the banquet, all of the speakers lauding Mr. Halberstadt for the achievements he has made in his chosen field.

It was an imposing list of guests—more than a hundred—which attended. Business and professional men were represented, but for the most part these persons were prominent in the country for their geological knowledge or mining interests. Headlining the list was Rear Admiral Peary. Others were George Otis Smith, director of the United States Geological Survey, and Maurice B. Campbell, Prof. Frank Knowlton, Prof. George H. Ashley, Dr. Alfred H. Brooks, Dr. W. C. Mendenhall, Frank Sutton, Edward W. Parker, Charles Euston and others connected with the Geological Survey or the Bureau of Mines; the chief geologists of several states, including Prof. Andrew S. McCreath of the Topographic and Geologic Survey of Pennsylvania, and Dr. W. W. White, state geologist of West Virginia; Fred W. Parsons and Frederick W. Saward, editors of coal journals, and others prominent in the mining world.

The recent rate was attacked as unreasonably high, in and of itself, said the commission. There being no charge of discrimination, except that it was argued that the rate in excess of 50 cents would be discriminatory to the Lake Superior Corporation, which had to bear the full charge and the trunk line railroads. This argument, and the opinion, has not been met by the carriers.

### ANOTHER STACK TO SPARE.

More Work in Prospect for the National Tube Company.

Official announcement was made in McKeesport that another blast furnace of the Monongahela group would be placed in operation in a few days. Two furnaces have been working for some time.

The operation of a third furnace means more work at the McKeesport mills of the National Tube Company, and the big plant will soon be working 75 per cent capacity.

**U. S. STEEL EARNINGS.**  
Debt of \$5,300,000 shown in Report for First Quarter.

The United States Steel Corporation reports for the quarter ended March 31 last net earnings of \$12,157,892, as compared with \$10,923,170 in the quarter ended December 31 last. A deficit of \$5,389,861 was reported for the March quarter of 1915, after other deductions for fixed and other expenses.

The Indiana Steel Company has declared the regular quarterly dividend of 4 per cent, payable June 1 to stock of record May 10.

Open Till  
Nine on Saturday.

### Dress Linens Are Moving Rapidly These Days

EVERY DAY sees many deliveries made to customers. Each day sees new assortments coming in to take their place, and in turn to be made into some of the loveliest creations for hot weather. And linens were never in greater demand for skirts, dresses and suits.

You may select plain colored linens for 35c to \$1.00 the yard; white linens at 35c to \$1.50 the yard; and natural linens (very much in demand) for 25c to \$1.00 the yard.

Also there are 90-inch linens at \$1.00, \$1.25 and \$1.50 the yard.

Something out of the ordinary is a special weave of crepe in a few pretty colors, but no white. Forty-five inches wide and moderately priced at \$1.00 the yard.

Many pretty colors in Non-Krush Linen, 36 inches wide at only 50c the yard.

### Buttons

In all great centers where women of fashion are wont to gather, there has been one predominant feature among all the frills and fabrics favored this season. And that foremost feature is BUTTONS.

And it is small wonder when so many different kinds of buttons have been turned out this year.

Small pearl buttons are very new, and come in round, oval, and flat shapes, all sizes.

Then there are wood buttons, light and practical, in the new aeroplane shape in round and square and many other shapes. Also many celluloid and novelties buttons.

Also many pretty black and white effects that may be used in rows, and singly and doubly. Our assortment is really fascinating.

### Pretty Wash Dress Fabrics In Fashion's Favored Weaves

Since shepherd checks are enjoying such great popularity this season, it is only natural that our stocks should be resplendent with these favored weaves. All the correct size checks are here, and at prices that are reasonable indeed.

—36 in. different size check, 50c the yd.  
—10 in. to 50 in. different size check, \$1.00 the yd.
